Capacity to undertake both critical and heavy mechanical, electrical and electronic design.

# Products

## Conventional Electric Locomotives

**Digital Notch Indicator**

Electronic Product with in house designed power supply & dsp boards ...

**Vigilance Control Device**

Used in Tap Changer Electric Locomotives  
More than 2000 units in field service ...

**Stick Type Master Controller**

Used in both conventional an microprocessor based tap changer Electric Locomotives ...

## 3 Phase Electric Locomotives

**3 Phase Loco Master Controller**

Electro Mechanical product with indigenize position sensor...

**Fire Detector Equipment**

Aspiration smoke & fire detection system with in built calibration ...

## Diesel Locomotives

**Diesel Master Controller**

Electronic Product with in house designed power supply & dsp boards ...

## Super Critical Thermal Power Plant

**Angle Transducer**

Used in both conventional an microprocessor based tap changer Electric Locomotives ...

## Electrical Multiple Units

**EMU Master Controller**

Used in both conventional an microprocessor based tap changer Electric Locomotives ...
